Summary

I am an information retrieval researcher based in Tiohtià:ke / Mooniyang / Montréal, Canada. My research focuses on the intersection of online information access, machine learning / AI, and concerns of social justice and emancipation. I have two decades of industry experience and currently working as an independent researcher. I am also currently serving as the ACM SIGIR Secretary and as an Associate Editor for the ACM Transactions on Information System (TOIS) journal. I previously served as the ACM SIGIR Community Relations Coordinator (2022-2025). I co-founded several community benchmarking efforts including the MS MARCO ranking leaderboards, two TREC Tracks co-sponsored by the US National Institute of Standards and Technology (NIST): the Deep Learning Track (2019-2023) and the Tip-of-the-Tongue Track (2023-2025), and the NTCIR Tip-of-the-Tongue Task (2026-). I have received several awards for my research, including two ACM SIGIR Early Career Researcher Awards (2024) for excellence in research and in community engagement.
